Weston	1	0	0	0	0	0	0	0
TOTAL	5	0	0	0	1	3	12	407

Presumptive viremic donor (PVD) is a person whom tested positive for West Nile Virus upon blood donor screening. PVDs are usually asymptomatic, are not included in human case counts, and are another indication of virus activity in an area.

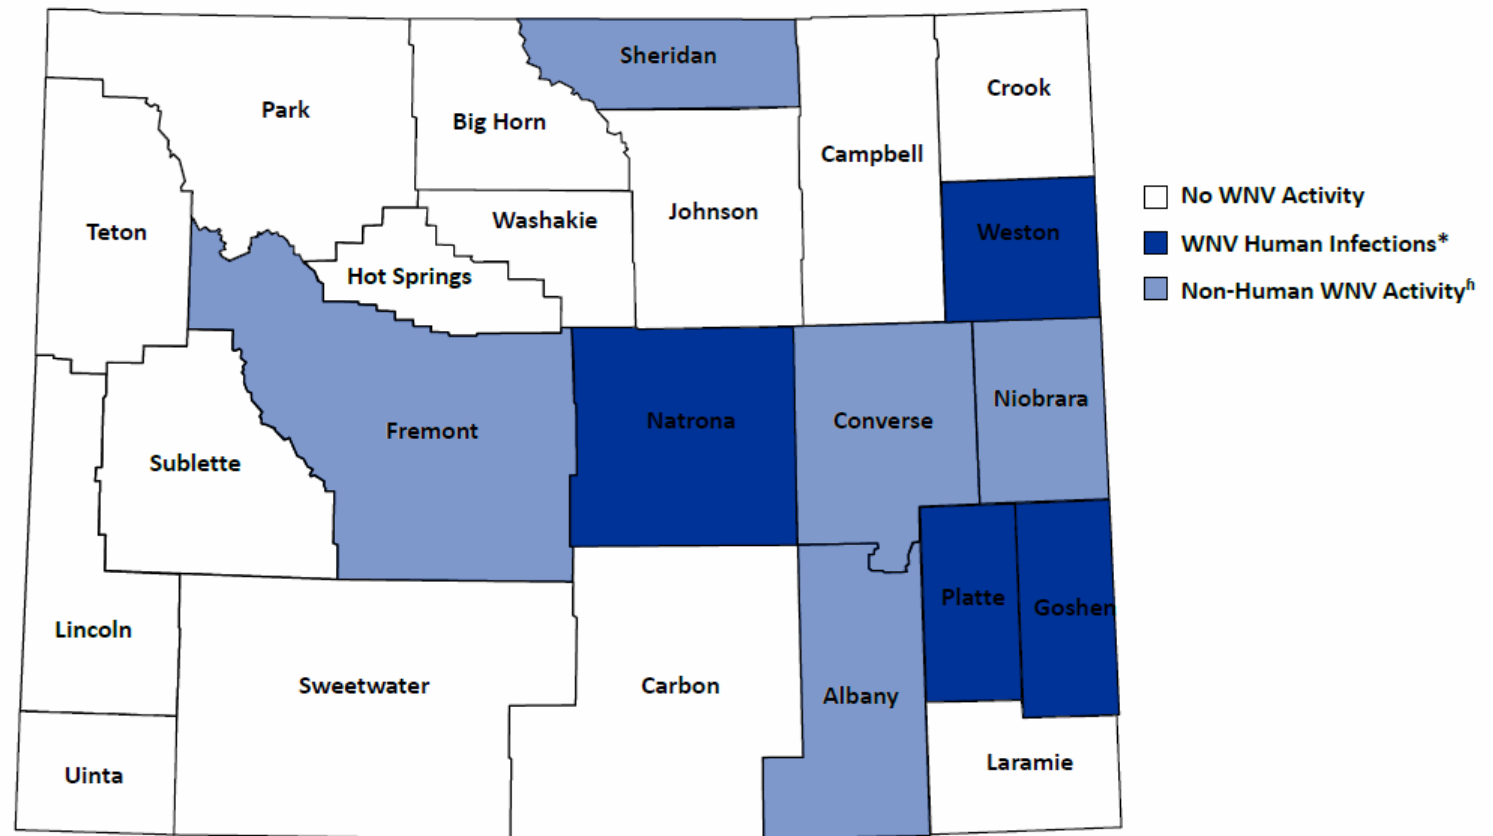

Counties not listed did not report any West Nile Virus activity or surveillance activities.

For questions, comments or to report West Nile Virus activity, please contact
Reginald McClinton, Surveillance Epidemiologist
(307) 777-8640 or Reginald.McClinton@wyo.gov.

Infectious Disease Epidemiology Program

Weekly West Nile Virus Activity Data current as of Friday, September 26, 2014

^{*}WNV human infections include cases of West Nile Fever, West Nile Neuroinvasive Disease, and Presumptive Viremic Donors.

^hNon-human WNV Activity includes WNV positive mosquito pools, and animal WNV infection cases such as horse or bird.

For questions, comments or to report West Nile Virus activity, please contact
Reginald McClinton, Surveillance Epidemiologist
(307) 777-8640 or Reginald.McClinton@wyo.gov.
